

# VS-4-S-HF High Flow

Combination Air Release Valve  
A Breakthrough in Sewage Main Valve Technology

VS-4-S-HF High Flow		
Weight	24 kg	53 lb
Air-Vac Orifice	2826 mm <sup>2</sup>	4.2 in <sup>2</sup>
Auto Orifice	15mm <sup>2</sup>	0.02 in <sup>2</sup>
Anti-surge Orifice	(variable) mm <sup>2</sup>	
Emergency Vacuum Orifice (optional)		
Single	1900mm <sup>2</sup>	2.85 in <sup>2</sup>
Double	3800mm <sup>2</sup>	5.7 in <sup>2</sup>
Others	Optional	

Twin valve chamber model is available. This will double all air flows.

Australia	Table D 100mm (4 hole)
USA	ANSI 4" x 9" (8 hole)

## Air-Vacuum Graph (Hi Flow)

## Optional Adjustable Anti-Surge

## Optional Emergency Air In Vacuum Control

### Australian Distributor:

Australian Designed and Manufactured by  
**Odour Technologies Pty Ltd**
